Dear Parents

Learning update this week ... What a great first week back! The children have been excited to talk about their Easter break and in English, we wrote about what our favourite day was. On Thursday we walked up to the main road to complete our own traffic survey, we logged the quantity and colour of the different vehicles that travelled through Hattersley. In maths, we have been working on our multiplication and division skills, proving we know how to work them out and answering true and false questions. On Tuesday it was Saint George's Day and the children created some wonderful collage art. Finally, we are on the hunt for the sandwich thief in ICT and the children have learned about the power of the email.

How can I help my child at home?

Talking homework: Ask your child who St George is and what are some facts about him and his story.

Please record your child's response here:

Homework: I hope the children have enjoyed the workbooks that were sent home at the end of the term. Again, these are to help the children and there is no expectation for them to be returned and complete. This week the homework focuses on the work we've done with multiplication and division. If you have anything they can use as counters it would really help them as this is a strategy we have been using.

Reading: Ensure your child reads during the week and make sure you have recorded a comment in the reading record to enable us to change your child's reading book.

Remember to leave us a comment on the back of this letter and tell us how your child has been getting on with their homework.

In the homework pack, I have also included a card with your child's purple mash login. Your child can access some of the software on this via a computer or tablet.

Please come and speak to Mr. Hopwood or Mrs. Goodson if you have any questions or e-mail dhopwood@victoriousacademies.org

Kind regards,

The Year 2 Team
